

HUGE CUT IN TAX SEEN

Large Surpluses Expected

Coolidge Believes New Slash Possible in Next Congress

Smoot Says Reduction May Total \$500,000,000 Due to High Income

WASHINGTON, March 18. (Exclusive)—Prospects of continued Treasury surpluses have convinced President Coolidge that a reduction in taxes will be feasible in the next session of Congress.

His opinion is, however, that it will not be possible to determine the amount of the reduction until next fall. By November he thinks the situation will have shaped up in such a way as to make a decision as to the amount of tax reduction possible. The House Ways and Means Committee is planning to start hearings on revenue law revision about November 1, and it is expected that recommendations of the Treasury, backed by the President, will be submitted to the committee at that time.

President Coolidge's view as outlined at the White House today is that it would be unwise to draw too hasty conclusions from the increased income tax payments of the present year. The large receipts from income taxes do prove, in the President's opinion, that his plan announced last fall for a flat percentage cut in taxes due in March and June of the present year on 1926 earnings easily could have been made. As a result of the refusal of Congress to make that cut in the large surplus is in prospect for the current fiscal year.

DEFENDS ON BUSINESS
Treasury officials here informed the President that a 10 per cent reduction in business throughout the country would wipe out all the surplus in prospect. Therefore, the President advises caution in estimating the amount of tax reduction until it is ascertained how business conditions hold up. Inasmuch as Congress did not see fit to make an emergency tax reduction, the President is satisfied to have the Treasury use the surplus in debt retirement.

It was indicated that the President had given his approval to the plan of the House Ways and Means Committee to have its experts start preliminary work at once and to start hearings a month or more before the opening of the session of Congress in December. That such approval should be given this long in advance was evidence that the President has no question that such a reduction can be safely made next winter.

METHOD UNDECIDED
At present the President has no opinion as to the method to be followed in revising tax rates. It is assumed that he will be largely guided by the options of Treasury officials as to what rates should be cut.

The Treasury is still without complete information on the 1926 tax income tax receipts. Today's Treasury statement of the 16th inst. showed receipts from income taxes on that day of only \$94,811,500 and a total for the month of March up to that date of only \$91,555,454, or approximately \$400,000,000 less than approximately \$400,000,000 less than

CAT SCHOOL FOR SCALING URGED

Not How to Get Up, But How to Get Down Out of Trees Their Need

ROCHESTER (N. Y.) March 18. (AP)—The Rochester Hu-

man Society thinks it might be worth while to undertake the education of cats in tree climbing. In a single month it was called upon to save seven cats that climbed trees and couldn't get down.

In some instances it had to call on the fire department for help.

The amount understood to have reached the various internal revenue collectors by the 15th inst. was \$1,000,000,000.

The amount in the hands of the Treasury by the 15th inst. however, was almost 50 per cent greater than on the same day a year ago.

The total for the month of March up to March 15, 1926, was \$63,690,750. On this basis there is no question but that the total for March will be close to \$600,000,000 as against less than \$600,000,000 in March, 1925.

Senator Smoot, Republican, Utah, chairman of the Senate Finance Committee, said today he believed the surplus this year would reach \$600,000,000. If this is the case he thought a \$500,000,000 tax cut might be possible with special relief being afforded corporations and those paying medium surtaxes and with some of the excise taxes reduced or repealed.

RACES WAR IN KANSAS TOWN

(Continued from First Page)

left the downtown district with cries for more guns.

Organized on older members, boys between 19 and 21 years of age, lay loose a barrage of rocks at the City Hall and the crowd of cheering boys and onlookers who encouraged the boys to storm the jail.

The boys then turned to the jail for the shouted intention of fring the City Hall in an effort to force an entrance to the jail. All firing stations were closed, however, and this was abandoned, the boys returning to the Municipal Building with a replenished supply of stones and the assault on the building was resumed with vigor.

THREE UNITS OF NATIONAL GUARD CALLED

TOPEKA (Kan.) March 18. (AP)—Three units of the Kansas National Guard were called out tonight by Gov. Frazier to render assistance to civil authorities at Coffeyville, in answer to a request made by Sheriff McCrabb, and the Mayor of the City.

Guardmen from Iola and Yates Center were ordered to embark in motor cars for Coffeyville to reinforce the units stationed there.

The units called out are: Troop B, One Hundred and Fourteenth Cavalry, commanded by Capt. Noel; Troop A, One Hundred and Fourteenth Cavalry, commanded by Capt. Gibson, and Troop C, One Hundred and Fourteenth Cavalry, commanded by Capt. Smith.

No effort was made by the officers and guards inside the building to halt this and an American flag waved from a front window of the hall most of the night.

YOUNG MEN SEIZED

Five young men were arrested and charged with breaking into hardware stores and looting the stocks of guns and ammunition. Several others were detained and their guns confiscated.

Apparently believing the crest of the trouble had passed shortly before midnight police guards and deputized citizens withdrew from around the hall and the crowd was allowed to enter the building to search the jail. Police had announced that two of the negroes had cleared themselves and had been released and declared the other suspect had been smuggled out of the jail.

Earlier in the night an attempt was made to lead the crowd to believe the suspect had been removed to another jail in a fire truck but this failed to discourage the leaders. Another crowd began collecting in front of the City Hall here at 11:30 o'clock. There was no outward show of violence, however.

SAPIRO'S FEES UNDER ATTACK

Senator Reed Gives Outline of Ford Defense

Says Plaintiff Will be Shown as Farmer Exploiter

Magnate Not to Take Stand in Trial Monday

(Continued from First Page)

against the schemes of the plaintiff, Sapiro.

"And having shown all this, we will show you to find that Aaron Sapiro was an exploiter of the American farmer."

Activities of the attorney among the Burley and dark tobacco growers, the potato growers of Idaho, Colorado and Maine, the fruit growers of Oregon and California and the peanut raisers of the Carolinas, were outlined by the Senator.

LARGE PROFITS CITED

Although Sapiro repeatedly said money was not the main objective in his work which was to uplift the farmer, declared the defense attorney, he collected about \$500,000 in less than a dozen States. According to Mr. Reed, Sapiro received as compensation for his services, \$40,000 from the Burley tobacco growers, \$55,000 from the potato growers, \$52,500 from the dark tobacco growers, \$46,000 from the peanut raisers of the Carolinas, \$47,500 from the California prune and raisin growers, \$142,000 from the Tri-State Tobacco Association, \$2500 from the potato men of Idaho and \$7500 from potato growers of Minnesota.

The binding nature of the contracts which the associations often, Reed said, under coercion, signed with the farmers were attacked by the defense attorney. He related Sapiro's methods of getting business, of the way he went into States to promote formation of the co-operative, and the success, if they followed his plans," declared Mr. Reed.

Senator Reed told of a plan of Sapiro's to organize the wheat growers of the country into a national exchange, and then organize the wheat growers of Australia, Argentina and Russia. He was constantly interrupted by Mr. Gallager, who did not like the general nature of the plea and its application to the charges of libel. Reed was permitted to proceed, usually, with what he was saying.

SAPIRO STILL COUNSEL OF CALIFORNIA PRUNE MEN

SAN JOSE, March 18. (AP)—Aaron Sapiro, whose \$1,000,000 libel suit against Henry Ford is being heard in Detroit, has been closely identified with the California Prune and Apricot Growers Association since its earliest inception down to the present time, his firm still being counsel for the organization.

In 1917 Sapiro conferred with farmer leaders who had a vision of a big fruit co-operative organization. Sapiro was to make a copy of the amended bill and write a check to draw up incorporation papers and to handle the legal end in getting the organization of the State department.

After several years of apparently successful operation, Sapiro's administration, in January, 1925, faced a demand for an accounting of the organization's finances on the part of the board of directors. He charged that Judge J. C. Coykendall, general manager of the association, had expended money too lavishly in his management. Welch also asserted that Sapiro had raised prices of prunes on a scale, including that of Coykendall, which was \$25,000 a year.

Judge Welch further asserted that the association's legal expenses had risen from \$3000 in 1918 to \$33,700 in 1921, most of which he charged was paid to Sapiro.

He was ousted from the board of directors, but not before he had won the accounting he sought. Later he was reinstated.

Sapiro's legal firm remains the association's counsel to this day, despite occasional criticism from Judge Welch and others. There is at present a movement toward complete reorganization of the association along radically changed lines.

Ford's attorneys spent several weeks in San Jose some months ago, according to Sapiro, in gathering information and gathering ammunition to be used against Sapiro.

MORE STOLEN MONEY DUG UP

PITTSBURGH, March 18. (AP)—Detectives investigating the \$104,000 Pittsburgh Terminal Coal Company payroll robbery dug up \$14,000 more of the money at the farm near Bentleyville of Joseph Weisberger, suspect today. Its recovery brought the total amount of money recovered to nearly \$50,000.

LEGISLATIVE BILLS PASSED

SACRAMENTO, March 18. (AP)—The Senate cleared sixteen measures from its calendar today by passing and sending them to the Assembly. These included nine additional bills on the program for revision of criminal procedure to provide for swift and certain administration of justice in California as proposed by the Crime Commission.

The measures passed included the following:

Senate Bill No. 606, Baker, to permit the Fish and Game Commission to control and destroy predatory animals where necessary.

Senate Bill No. 401, Baker, to provide that the State Board of Corrections, authorized supervisors to consolidate election districts.

Assembly Bill No. 728, Snyder, limits the rate per diem to be paid by supervisors for laying roads to \$10.

Assembly Bill No. 446, Bishop, an act to license and regulate the manufacture and sale of upholstered furniture.

Assembly Bill No. 1095, Woodbridge, reorganizes Nevada Irrigation District validating all organization proceedings.

Assembly Bill No. 614, Wemple, relates to salaries in Modoc county.

A. B. 149, Williams, increases salaries of Modoc county officers.

A. B. 584, Williams, increases salaries of Colusa county officers.

A. B. 1008, Reinholdt, increases salaries of Butte county officers.

A. B. 417, Reinholdt, increases salaries of officers of Marin county.

A. B. 113, Bell, increases salaries of officers of Marin county and provides for additional clerks.

A. B. 389, Hall, increases number of probation officers in Orange county and raises salaries of two assistant probation officers.

A. B. 387, Hall, increases salary of county librarian from \$1800 to \$2100 a year.

A. B. 58, Finley, increases salaries of Santa Barbara county horticultural commissioner and deputies.

A. B. 559, Noyes, increases allowance for transportation of voters from \$400 to \$2200.

A. B. 419, Reinholdt, increases salary of Marin county librarian.

A. B. 498, removes tax of 10 cents per head on rams imported into California.

A. B. 1135, Wright, provides for fees collected by railroad commission shall be credited to general fund of the State.

A. B. 444, Reinholdt, new general law providing for county police protection districts. Authority to form such districts is vested in the boards of supervisors.

A. B. 407, Scudder, authorizes sale of specum salts in packages of not less than ten pounds when labeled "for live stock only."

BOTH HOUSES TRY TO SPEED UP BUSINESS

SACRAMENTO, March 18. (AP)—Both houses of the Legislature went into session today and tried to start a clean-up of the business in less than thirty days. Gov. Frazier today called for the Legislature to speed up progress through the Legislature. The Governor made the statement that the Legislature to all members of the Legislature:

"(1) An explanation of each bill should be given to the Legislature. This may be supplemented when desired by statements from others not in the Legislature who are particularly interested in the bill.

"(2) I should appreciate from committee chairmen and committee members statements regarding bills which have gone through their committees and which have attracted their attention as being particularly desirable or particularly undesirable.

"(3) Finally, I should appreciate hearing from members regarding any bills in which they have become especially interested, either for or against."

"Although we want to pass every necessary piece of legislation, I am sure that we all will agree that a minimum all proposed legislation which is unnecessary."

SENATE JUDICIARY BODY CLEANS ITS SLATE

SACRAMENTO, March 18. (AP)—The proposed change in the law defining newspapers of general circulation, presented by Senator Jones of San Jose, today was amended in the Senate Judiciary Committee and recommended for passage. The amendment provides that to be a newspaper of general circulation the newspaper must be printed and published at the same place, and that the printing requirement shall be that 50 per cent of the type-setting and printing must be done at the place of publication.

The committee cleared its calendar save for measures on special hearing by giving favorable recommendations to the following:

S. B. No. 166, Weller, providing for non-profit agricultural co-operatives election by districts is permissive to permit to elect members to cast votes that would be permitted if the election were held at one meeting place.

S. B. No. 168, Weller, changing some sections of the California co-operative marketing law to make it harmonious with the Federal law, and permitting directors when authorized in advance to change by-laws of co-operatives.

S. B. No. 280, Lyon, providing for fees in municipal courts, including a 50-cent fee for cases and similar fees to superior courts.

S. B. No. 428, Jones, C. B., providing for equalizing the age of majority for persons under 21 years of age in connection with marriage laws. This would change the age of majority from 18 to 21 years.

AMERICA TRIPS ON DECALOGUE

Test Shows That Few Know Ten Commandments

One Answers, "Sure It Was a Swell Picture"

Church Paper Gives Report on National Survey

CHICAGO, March 18. (AP)—Ignorance of their own basic laws among church people has led the North-western Christian Advocate, a publication of the Methodist Episcopal Church here, to conclude that America doesn't know the Ten Commandments—at least not well enough to save them.

"There must be no false faces before us," was one of the most glaring examples of ignorance obtained in a two months' test just concluded by the Advocate. "Keep away from your neighbor's wife," was another, quoted in a variety of ways.

Hardly anyone admitted ignorance. It was discovered, but after starting out "of course" many weakened on the actual test and started out "Thou shalt—er" stopped, and started again "Thou shalt not—uh—er," and on the average made no more than five attempts to give any of the ten.

"SWELL PICTURE"

Rural and urban America both are largely ignorant of the letter of the law, the test indicated. In a little town of Buffalo, Ill., one person asked of the Ten Commandments was, "What is a decalogue?"

"A college" in Sioux City, Iowa, started quoting the beatitudes.

"In a few instances were the tests limited to Methodists," the Advocate announced today. "Most of the tests appear to have gone abroad in the communities, gleaming in as many different religious fields as possible. As far as determined by our church has accomplished a markedly superior sort of religious education."

"One investigator believes she found signs of unusual training among Catholics; another found Catholicism had failed to teach the Decalogue at all.

"Bury and girls in the Sunday schools were found to be better prepared in reciting the Commandments—providing no more than a year had elapsed since they studied them. Otherwise there was no marked difference among juniors and adults, save that the older folks were more embarrassed when the terrible truth dawned on them."

Women were reported to have scored a "little higher" than men. Among odd answers listed by the paper under the title "Adventures while examining the Decalogue" were the following:

"You should not take your neighbor's cow."

"There is a long one about water and having other gods."

"Thou shalt not murder." (Quoted by a police magistrate.)

"Love thy neighbor as thyself."

"Keep the Sabbath and make it holy."

Of those who answered any commandments, most got "Thou Shalt Not Commit Adultery" identified correctly.

Assembly Adopts Resolution for Reapportionment

SACRAMENTO, March 18. (AP)—The Assembly today adopted a resolution introduced by Assemblyman Baum of Los Angeles to memorialize Congress to reapportion Congressional representation in the United States.

As the last reapportionment was accomplished many years ago Baum believes that California, which has grown so fast in the last few years, is entitled to more districts.

SHAW SUE BY ANGLO

Dramatist and Jesse Levinson Swap Grounds of Injunction Case

LONDON, March 18. (AP)—George Bernard Shaw's battle with the barometer of battle in the chancery court moved this way and that as the legal battle ebbed and flowed, brought about the Irish dramatist by Jesse Arnold Levinson, who sought to prevent interference in the production of a film version of Shaw's "Major Barbara" on the grounds of infringement on literary rights.

The Shaw was in court almost five hours, but whispered to his counsel only occasionally, while Mr. Levinson testified and produced experts to support his efforts to obtain an injunction to restrain Mr. Shaw from interfering with filming the opera.

But late this afternoon, Justice Eve, presiding, remarked that it appeared to him there was no cause for the plaintiff's action, the shawyer's evidence stood out straight as their owner held a broad smile with his hand and repeatedly nudged his counsel. Justice Eve adjourned the case until Monday, when he said he will hear further argument on behalf of the plaintiff in order to determine whether to permit amendment of the complaint.

For almost three hours Shaw and Levinson exchanged glances across the public's taste in films.

"In a few instances were the tests limited to Methodists," the Advocate announced today. "Most of the tests appear to have gone abroad in the communities, gleaming in as many different religious fields as possible. As far as determined by our church has accomplished a markedly superior sort of religious education."

Former Aide of San Francisco

Pay Roll Juggling to Cover

Book-keeper Said to Have
Taken \$3000

SAN FRANCISCO, March 18. (Exclusive)—While a threatened investigation by Atty.-Gen. Webb and the county grand jury into charges of city payroll juggling to cover up an asserted \$3000 embezzlement in Dist. Atty. Brady's office hung fire today, Brady officially withdrew from the prosecution of the "molders' strike" cases in which is involved William R. Burton, union official, former member of Brady's staff, and the "pivot" of the \$3000 embezzlement accusations.

Brady made known his withdrawal from the prosecution of Burton and other indicted members of the "molders' union" in a letter addressed to Atty.-Gen. Webb requesting the official to deputize one of his assistants to prosecute the cases.

RUMORS IGNORED
Ignoring the flying rumors of Attorney-General and the grand jury, Brady seemed chiefly concerned today in withdrawing from the prosecution of Burton and the other members of the union facing grand-jury indictments on charges of murder, assault and conspiracy.

Some time between May and July, 1926, Burton, as book-keeper in the bond and warrant division of Brady's office, is said to have been found short \$3000 in the funds of that office, made up chiefly of half money.

A year later the records of the police department show that Police-Man Cornelius Broonan, sold duty man, who was affiliated at one time with the molders' union, reported to his superior, Capt. J. J. Casey, that he had been requested by Dist. Atty. Brady to make a confidential investigation of Burton's asserted irregularities.

REPORTS MISSING
Broonan is supposed to have been selected by Brady to make the investigation, but the subsequent reports made on the case by Broonan, when Capt. Casey demanded a more definite explanation of his detail with the District Attorney's office, are missing from police records, police officials admit.

Broonan still maintains that the investigation for Brady was a confidential one, but Brady does not support the assertion. Broonan took part in the investigation of the office was for an altogether different purpose and had nothing to do with Burton.

The common rumor is that Burton's asserted shortage was made up by other members of the bond and warrant staff, that Burton left the office between July and November, 1923, and that thereafter his pay checks were cashed to reimburse those who made good his shortage.

An impressive national salute of twenty-one guns was fired from the largest vessel. Fifteen admirals took part in the review. The greatest force of American sailors ever assembled was disappointed when Admiral Hughes, commander of the fleet, prohibited shore leave at Gonaives. No statement was made as to the cause of the order.

Admiral Hughes, lecturing the division commanders on the lessons of last week's maneuvers, said that the strength of the modern navy is in its powers to dodge, shoot and sink. by Germany Set Aside

WASHINGTON, March 18. (AP)—The German Embassy here has been advised by Berlin that "inference drawn" in this country regarding reported rise of German tariffs on automobile parts were "groundless." The American automobile industry had been informed that tariff rates were to be placed on automobile parts which would be injurious to American investments in Germany.

German proposals to raise the tariff on automobile parts imported from the United States have been at least temporarily set aside, the Commerce Department today was notified by cablegram from the American commercial attache at Berlin.

GIRLS PALS OF CANNIBALS

New Yorkers See Weird Sights in Adventurous
Voyaging in South Seas

SAN FRANCISCO, March 18. (AP)—Two young women from New York City have been hobnobbing for six months with former cannibals of the south seas and enjoying it. They have been through hurricanes, tasted the ashes of a volcano, been shaken by terrific earthquakes, and they have no intention of returning soon to the sidewalks of New York.

The two voyagers, Miss Viola French and Miss Jean Schoen, described themselves as "adventurers and literary aspirants" in a letter to the Associated Press from a vessel near Sydney, Australia, dated February 25.

They arrived in the Fiji Islands early last November after a forty-five-day voyage from Vancouver, B. C., in an old sailing vessel. Fifteen days later they were in Noumea, island of New Caledonia, a French possession.

LIKE HIT OF PARIS
"We remained in New Caledonia one month, it is a beautiful island," Miss Cooper wrote. "The capital, Noumea, was like a bit of Paris with the grand canyon for a background. As the end of the month, Miss Schoen went on a small schooner around the Loyalty Islands, and I came to the New Hebrides. On the small steamer St. Michel. This is my seventh week on board that ship and I have sailed with her for three days. We have cruised around all the islands in the archipelago, and I have seen some of the most beautiful scenery I have ever seen. I have gazed upon ex-cannibals who were nothing but a rod through the neck and I have been on the beach where there are still plenty of cannibals actively practicing their profession."

"I have been on board this ship when we were anchored at the foot of a volcano with warships firing at our faces. Once we were caught in a hurricane and nearly wrecked on the face of a reef."

MOUNTAIN OPENS
"The last time we were in Port Vila, capital of the New Hebrides, we experienced a series of terrific earthquakes lasting three days. At the end of that time, six places in the mountains had opened and steam was pouring forth. The mountains had become like a giant's face and were looking at us."

"Mr. and Mrs. Jack London called here in the Snark years ago. They gave a war dance on board. They were still in the Snark when it was wrecked. It was the most thrilling experience we have ever had. The tom tom carries you away from the present completely. You are in a small group of people, using sticks, while the natives carried and wielded tomahawks, but the spirit of the dance made us feel we had tomahawks, too."

LEGISLATIVE
CENSURE ON
HUNT'S VETO

Arizona Members Caustic
in Rejoinder to Message on
Highway Bill

PHOENIX, March 18. (Exclusive)—The Arizona Legislature will recess till April 18, next, this being forced by the anti-administration element in each house. After six days' recess, the two houses met today, with four House members absent, to receive the veto of the highway bill. Gov. Hunt gave his views in much detail, declaring that the bill would hamstring and wreck his Highway Department, that it would increase taxes, that it was unconstitutional, and that it is contrary to the spirit of the State Constitution. He also demanded immediate and separate payment of a \$623,000 deficit in the department. The appropriation bill was returned to the Legislature.

Late in the afternoon the Legislature returned its answer. It was in the shape of a joint resolution, stating that the highway veto stated merely matters of personal opinion and belief and was not intended to be a veto. It was a declaration of the Legislature's disapproval of the veto. The bill was returned to the Governor.

INDICTMENT REFUSED
Grand Jury Instructed Not to Issue
New Charge Against Detective

EUREKA, March 18. (AP)—Superior Judge Selva today instructed the Humboldt county grand jury that T. P. Magilligan, former editor of the Humboldt News and now county detective, could not be reindicted on charges of criminal libel preferred by W. W. Markham, member of the Humboldt County Law-Enforcement League. The charges had been rushed on Monday by the District Attorney. Judge Selva held that a dismissal of an indictment charging a misdemeanor is not a bar to a further indictment for the same offense. Today's decision was taken following arguments before the grand jury by the Humboldt County Ministerial Union and W. C. T. U. organizations requesting that they reindict Magilligan for criminal libel, brought together two opposing factions.

Mount Vesuvius
Emits Fire and
Dense Smoke

NAPLES, March 18. (AP)—Mount Vesuvius resumed eruptive activity last night. The crater was hidden from view by columns of flame and dense smoke.

The new outbreak, which followed the eruption of the earth shocks, consisted according to experts of the observatory on the volcano, in the expulsion of incandescent lava from the crater. It is no longer a danger for the present.

Hundreds of American tourists at the large hotels along the Bay of Naples remained awake most of the night watching the awe-inspiring sight.

Hold-up Man's
Nerve Unequal
to Challenge

SAN FRANCISCO, March 18. (AP)—Julian Blair of Seattle challenged a hold-up man's nerve early today and won.

Blair reported to police that while he and a woman were seated in a parked automobile near the beach a stranger wearing a handkerchief as a mask appeared, shoved a revolver at Blair's face and demanded all his cash. He threatened death.

"Go ahead, shoot, if you have the nerve," Blair said to the stranger. "I've got \$100 on me, but you're only going to get \$20; take it and be gone."

Whereupon he peeled the bill off of his roll, gave it to the bandit and watched him disappear.

MUNCH GIVEN FIVE YEARS
TAMPA (Fla.) March 18. (AP)—Dr. George A. Munch, convicted head of a "diploma mill" said to have been operated here since 1921, was sentenced to five years' imprisonment in the Federal penitentiary at Atlanta and a fine of \$1000 in Federal Court today. Notice of an appeal was filed.

THEOSOPHISTS BUY OJAI LAND
Order of the Star of Ojai
126-Acre Tract
Proposed to Move Headquarters There
Will be Scene of Camp Congress

VENTURA, March 18.—The order of the Star of Ojai, a theosophical organization, has purchased a 126-acre tract of land in Ojai, Cal., for its headquarters. The tract, which is situated on the edge of the city, is being purchased for the purpose of moving the headquarters of the order to that place. The order, which was founded in 1888, is a theosophical organization, and its headquarters are now located in San Francisco. The new headquarters in Ojai will be the scene of the annual camp congress of the order, which is held every year. The tract was purchased for \$10,000, and the order expects to complete the purchase of the remaining 100 acres within the next few months.

PROBLEMS OF FLOOD MEN
Near Solano

GLENDALE, March 18.—The problems of the flood men near Solano, Cal., are being discussed by the local authorities. The flood men, who are engaged in the business of buying and selling flood water, are causing a great deal of trouble in the area. The local authorities are trying to control the flood men, but they are having a hard time doing so. The flood men are selling flood water to the farmers, and the farmers are using the flood water to irrigate their crops. This is causing a great deal of trouble for the farmers, as the flood water is not good for irrigation. The local authorities are trying to stop the flood men, but they are having a hard time doing so.

CASKETS WILL HAVE PHONES
Delicate Instrument to Sound Alarm Should "Dead" Revive

MADRID, March 18.—(Exclusive)—At the cemetery of San Jose at Burgos experiments have been completed for an elaborate mortuary telephone in view of the dread possibility that somebody, some day, might be buried alive in a state of coma mistaken for death.

A tiny telephone will be installed in the cover of each casket and a delicate microphone at the bottom attuned to the slightest movement will ring an alarm bell in the porter's lodge, where someone will be continuously watching the switchboard for signs of subterranean life.

seemingly to imagine that he was the creator and preserver of the Federal Reserve bank system and that those who actually conceived and wrote and translated the measure into law were the beneficiaries of which he fitted his legislative device.

President Wilson was opposed to banking representation on the Federal Reserve Board and had his way against all opposition, including Senator Glass, the writer states. Senator Glass declares that President Wilson always quietly insisted that the banking bankers should not write the banking bill.

Officers Grill DeAutremont on Location of Kin

SAN FRANCISCO, March 18.—(P)—After their preliminary questioning of Hugh DeAutremont on Alcatraz Island, postal authorities today demanded that he furnish the location of his kin.

Rough DeAutremont knows where his fugitive brothers are hiding—this is what the postal authorities are convinced—and they plan to hold him in the Alcatraz army prison for several days, submitting him to a relentless stage of questioning in an effort to gain information aiding them in the apprehension of his brothers.

Postal Inspector Riddiford of Spokane and detectives who have charge of questioning DeAutremont were not successful in gaining much information from the prisoner.

Oregon authorities are here to take charge of DeAutremont when the government is through questioning him.

Assembly Sees No Benefit in Wage Publicity

SACRAMENTO, March 18.—(P)—The high salaries of executive officers of public utilities should not be made public, it was determined by the Assembly Committee on Public Utilities.

It tabled a Senate bill by Garrison of Modesto which would make it obligatory upon all public utility corporations under contract to the State to file with the Public Utilities Commission a report of a schedule of all salaries in excess of \$5000 per year and such a list would be open to public inspection.

Spring Weather Lures Coolidge to Out-of-Doors

WASHINGTON, March 18.—(P)—The urge of the open that comes with spring has been felt this year by President Coolidge who, contrary to his usual habit, has been taking short drives almost daily through the spacious parks of the city.

Since entering the White House the President has seldom used his expensive limousine for pleasure trips, usually devoting his spare time almost daily to walks, one of his favorite strolls being down F street, the parade avenue of the Capital and its busiest thoroughfare.

But this year the exceptionally favorable weather, which has brought out buds on the trees ahead of time has lured the President into the open, and nearly every evening finds him driving with Mrs. Coolidge, frequently through Rock Creek Park, once the favorite walking ground for President Roosevelt.

Nine interstate intercollegiate debates are on the schedule of the University of Southern California debating team's annual spring tour.

Arthur Byrten, team captain, and William Menley, student manager, will open the season with a debate against the University of British Columbia, the 29th inst., at Vancouver. Other scheduled debates are with College of Puget Sound the 30th inst., Washington State College April 1, Willamette University April 4, University of Oregon April 5, Oregon State College April 7, Brigham Young University April 12, Utah State College April 14, University of Utah, April 18. The questions selected for debate are "Resolved, that the Foreign Powers Should Immediately Withdraw from China" and "Resolved, That Mussolini is a Benefactor to Italy."

RECORD DEMAND FOR CARS SEEN
Transportation Board in Session at Phoenix

Problems of Moving Crops Discussed at Meeting

Arizona Products Shown to Reach Huge Total

PHOENIX, March 18.—(Exclusive)—Service and co-operation formed the keynote of the meeting here today of the Pacific Coast Transportation Advisory Board, in the eleventh of its quarterly sessions. Designation of Phoenix as the meeting place, according to a Los Angeles delegate, was to "show the general coast interest in the Arizona trade territory and our hearty good will." The last meeting was in San Francisco and Los Angeles.

In the reports from about forty subdivisions and in the discussions were no features of rates and no arguments. In succession came details of experience of past seasons, reports of the cars that will be required for getting out the crops that soon will be taking all transportation facilities.

There was agreement that the year's conditions appear very favorable, from the growers' viewpoint, but some anxiety was expressed whether the rail lines might not break down under the demands of the San Joaquin grape crop. Plans for avoiding this are being given special consideration. Statement was made that among the several hundred attendants were representatives of possibly a majority of the users of the enormous quantity of rail equipment that will be called for this summer on the Coast.

Arizona had little to ask, the Salt River Valley crops, especially of lettuce and cantaloupes, come off at periods when cars are available in plenty while its grapes usually are a shade ahead of San Joaquin Valley.

POLICE "BILLY," USED TO CRACK HEADS, IN DISCARD AT CHICAGO

CHICAGO, March 18.—(Exclusive)—Another time-honored symbol of police authority—the billy club—has passed into history, at least so far as the Chicago police force is concerned.

"We have discarded the billy club as an almost useless weapon," Chief Collins announced. "Only a few men, those who are still walking beats, carry them any more."

The era of street fights with sticks, bricks and fists, when it was often necessary for a blue coat to crack a few heads with his billy, has disappeared, the chief explained. Nowadays the rowdies and crooks carry pistols in their pockets and machine guns in their high-powered cars.

"The modern policeman is a friend of the times," Chief Collins said. "He, too, rides in a fast car and carries an automatic, as well as rifles, machine guns, hand grenades and tear bombs. Whenever he does get into a free-for-all he uses the butt of his revolver for a club, or his fist."

MISSISSIPPI GOVERNOR SUCCUMBS

Whitfield Cancer Victim; Murthree Becomes Chief Executive of State

JACKSON, (Miss.) March 18.—(P)—Gov. Whitfield of Mississippi died at 4:41 o'clock today. He succumbed to cancer of the bone, which first attacked the left leg causing an amputation on November 30, 1926. Several days ago, after having returned to executive duties, he again was forced to his bed. At the death of Gov. Whitfield, Lieut.-Gov. Dennis Murthree of Pittsboro automatically became chief executive of the state. Gov. Murthree, 41 years of age, newspaper publisher and former State Senator, Gov. Whitfield was 59 years of age.

ARCIC TRIP PLANNED

Chicago Yachting Party Soon to Leave San Francisco for Cruise

CHICAGO, March 18.—(Exclusive)—John Borden, millionaire skipper of the Northern Light, and his wife left today for San Francisco to embark in the yacht April 23, next, for a voyage which will bring them back to Chicago some time next October.

The trip, in addition to the adventure it will furnish for the Borden and their guests, will yield, it is expected, many varieties of kodak and polar bear, of seal and walrus. These specimens will be given to the Field Museum, of which Mr. Borden is a trustee.

Nine young Chicago Sea Scouts, winners of a competition of 180, will accompany Mr. and Mrs. Borden for part of the trip. At Victoria, B. C., more Chicagoans will join the party.

Suspect Tells of Six-Year-Old Double Murder

ZAPATA, (Tex.) March 18.—(P)—A 40-year-old Filipino, Philip Juan Ybanes Barden, held by police here, today confessed to the slaying of two men and to the wounding of one man in Vallejo, Cal., six years ago. Vallejo authorities have been notified.

VALLEJO, March 18.—(P)—Philip Juan Ybanes Barden, known here as his landlord, A. J. Herrick, the latter's son, and another roomer, Francisco Amper, Filipino, police said today, Herick and Amper died of their wounds.

There was agreement that the year's conditions appear very favorable, from the growers' viewpoint, but some anxiety was expressed whether the rail lines might not break down under the demands of the San Joaquin grape crop. Plans for avoiding this are being given special consideration. Statement was made that among the several hundred attendants were representatives of possibly a majority of the users of the enormous quantity of rail equipment that will be called for this summer on the Coast.

Arizona had little to ask, the Salt River Valley crops, especially of lettuce and cantaloupes, come off at periods when cars are available in plenty while its grapes usually are a shade ahead of San Joaquin Valley.

Flyer, Unseated, Hangs to Plane and Lands Safe

NORFOLK, (Va.) March 18.—(P)—The story of how a naval aviator, thrown from his seat in doing a loop, clung to the braces of his machine while the plane plunged 2500 feet eastward, then managed to crawl back in, right the craft and bring it to a safe landing was told today at the Hampton Roads Naval Air Station.

Lieutenant Commander Isaac Schloesback in a recent flight over Norfolk, attempted a loop at an altitude of 4000 feet. When the loop was half completed he slipped from his holding belt and was left clutching the brace bars while the plane roared on upside down.

With fate as the pilot for a time, the plane suddenly righted itself and, dropping 2500 feet and the aviator climbed back into his seat, settled down and made a safe landing.

KING REFUSES "LIFT" TO CAPITAL OF HAITI

SANTO DOMINGO, March 18.—(P)—United States Senator King is joining with his party today for Laramore on the southern coast of the island, Haiti. American aviator, is said to have offered to take Senator King by airplane from Laramore to Port au Prince, capital of Haiti. The Senator, however, had announced he would not include Haiti in his present West Indian tour.

STANFORD PLANS LAW SCHOOL FUND

SAN FRANCISCO, March 18.—(Exclusive)—Preparations for a campaign to raise a fund of \$750,000 for Stanford University law school were made at a meeting of alumni of the school with members of the faculty. It is planned to use \$500,000 of the money for the erection of another building for the use of the law school and \$250,000 to endow the library.

—this interesting and enjoyable trip to

Walnut Acre Farms

THIS beautiful trip thru the famous San Fernando Valley will not cost you a cent. Not one. You'll ride in one of our new luxurious busses thru Hollywood's Movieland. You'll go over the historic Cahuenga Pass. You'll glide down into the San Fernando Valley, now unusually beautiful with the neighboring hills sheathed in green and spring wild flowers bursting into bloom.

... then to top off the trip, we'll stop at Walnut Acre Farms and enjoy a good lunch with a stimulating drink. It is all free. Not a penny's charge. Not a single obligation.

Why don't we charge for such trips? Because we want more people to know about the prosperity and money-making possibilities of Walnut Acre Farms.

Here is fertile, improved land located on one of the most important boulevards in California. It is a thriving, prosperous community, located in the direct path of progress. As Los Angeles expands, values at Walnut Acre Farms must increase. The Placentia Budded Walnut Trees are already four years old.

But seeing is believing, and we want you to see Walnut Acre Farms for yourself. On this enjoyable trip you can mix both pleasure and business. Phone TRinity 4811 and have a seat reserved for you.

California Explorer Discovers Pygmy Tribes in Jungle Heart.

PROF. MATTHEW W. STIRLING of Berkeley, assistant curator of the National Institute, returned recently from an expedition into the jungles of Dutch New Guinea, a district which no white man had ever penetrated where he discovered five tribes of pygmies living in a most primitive state. The party, which consisted of Prof. Stirling, Richard W. Peck, photographer; Stanley Hedberg, historian; Albert Hamer, mechanic; and an aviator, who died of typhoid while still a member of the party, 200 Dutch troops, forty Malay convicts and seventy Dyak carriers, had several narrow escapes from death at the hands of unfriendly Papuans. Photos on this page depict types of pygmies encountered, as well as some of their implements, weapons and dwellings. These pygmies are of negroid type and stand from 40 to 42 inches in height. (Photos from Wide World Photos, copyright Stirling.)

Presentation of a pig was the first official act of the natives after arrival of the party at a village. The unfortunate porker was always trussed to a pole held by two natives while a third ceremonially shot it with bow and arrow.

A group of pygmies at Agentuwa in the heart of Dutch New Guinea. The gentleman second from the left is a village magician and what he doesn't know about spirits and devils is little. The pygmies are alert and intelligent.

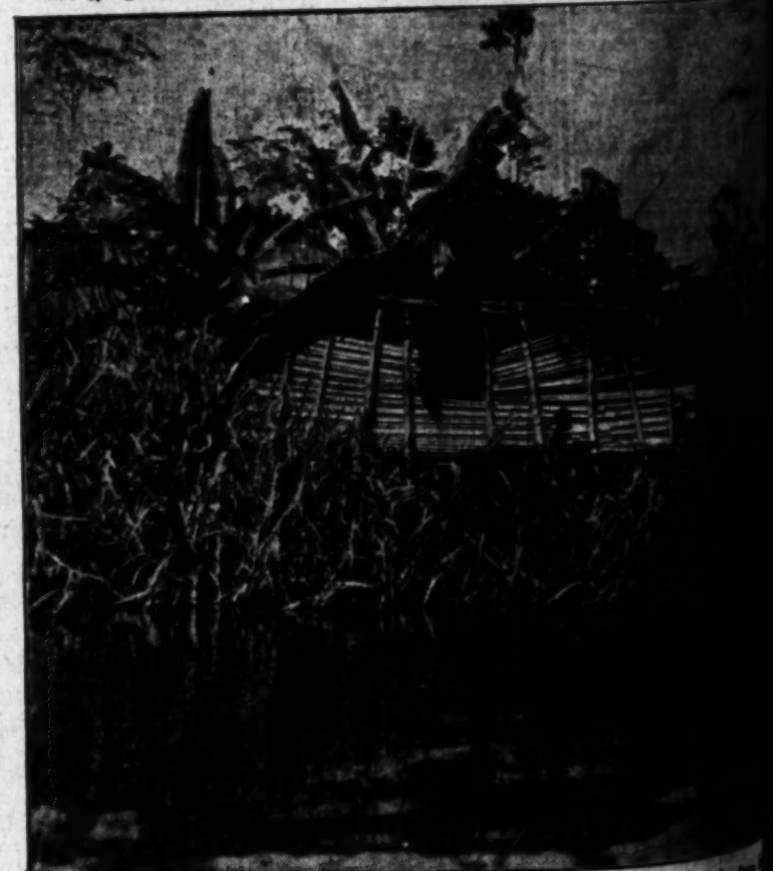

Stanley Hedberg, the historian, with a pygmy family, father, mother and daughter, at doorway of primitive dwelling in jungle heart.

Well developed pygmy type armed with stone ax, which is both weapon and indispensable implement.

The first pygmy met by the expedition, snapped as he suddenly appeared in the jungle and stood poised on a log eyeing the strangers.

Pygmy dwellings on the bank of Rouffner River. The larger of the two is exclusively for the men; the smaller one for the women.

Prof. Stirling in the role of host, greets pygmy visitors to the camp at Agentuwa. The pygmy is seldom caught without his bow and arrow.

The historian sizes up robust male and female of one of the five tribes found in the wild interior.

The pygmies are alert and intelligent, the explorers declare. Hedberg, taking their first look at print and picture.

WHEN JEFFERSON TRAMPLED POLY

Here are a few winners in yesterday's meet on the Democrat Field. At top the camera caught the boys going over the first hurdle in the 120-yard high barrier event. Creecy of Jefferson pulled a surprise when he leaped the sticks to win in 16.8s. On the right is Capt. Bill McGee, Polytechnic leader, who won the 800. It was a sensation last year and should be a good number of points this season. In the oval is Hirschmann, Jefferson miler, and one of the most promising four-lap men in the City League. He won his event easily. (Photos by F. M. Litchfield, Times staff photographer)

Bunching five hits in the fourth inning for five runs and adding three more for emphasis in the eighth, the Trojans had no difficulty in routing California, 8 to 1, on Harvard Field yesterday in a California intercollegiate baseball league game. Ted Sahlborg, mountain man of a twirler, and Carl Krueger, general utility man who went into the outfield for the day, featured the contest. Sahlborg pitched a high-class game, fanning nine of the Bears, and giving seven hits, for the most part, well scattered. Stubby Nemescheck, who opposed him on the mound, suffered one bad inning—the fourth—and in nine of the nine, and giving seven hits, for the most part, well scattered. Tilden triumphed over George M. Lott, Jr., Chicago, former national junior title-holder, in straight sets, 6-4, 6-1, 6-3.

GENE DECLINES BREAKFAST BID

'Might Look Funny,' Declares Heavy Champion

Jack Not Bothered by Rival's Lack of Etiquette

Will Make Return Go Grudge Affair, Belief

BY BILL WISE

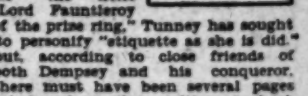

Gene Tunney, Philadelphia marine, yesterday turned down an invitation to be the guest of Jack Dempsey, the man he defeated for the world's heavyweight crown, at the weekly gathering of the local Breakfast Club.

The present situation here last week and indignantly denied that he was either a "bookworm" or a "big bird" as Lord Paunier of the prime ring. Tunney has sought to personally "etiquette" as she is did, but according to close friends of both Dempsey and his conqueror, there must have been several pages missing from the politeness book Gene essayed to portray.

In refusing to accept all tributes of Dempsey's hospitality while in this city, Tunney has further belittled the exact status of the big title fight in Philadelphia last September, by stating "it might look funny," after the talk that followed my fight with Dempsey, if I should be his guest in Los Angeles."

According to Dempsey, Tunney's undiplomatic statement regarding the most talked-of championship fight in history proves conclusively that Tunney was talking about Tunney at the time, he inferred that the championship reign of the new champ was limited by the length of the training program he would undertake to get back in shape. Dempsey also stated that when he met Tunney again, the fight would last but a few rounds and after Gene's ungracious refusal to an invitation tendered in a real spirit of hospitality, Dempsey stated he could probably win his next championship fight at least one round sooner than he expected to last week.

Tunney stated yesterday that during the last week.

Today Carter faces Les Schwobeda and the California man is doped a better runner than Kerr. However, if Nick can do 4m. 22s., he should win. It is doubtful if the former Oxy runner is down to that time now. Nick will get some help from Henry Lumley and Willie Arenas to the two-lap event.

STECHER MEETS LUTZE HERE

Joe Stecher, heavyweight mat-
champion, through his brother-man-
ager Antonio, yesterday accepted terms
offered by Promoter Lou Doro for a
titular match with Nick Lutze at
the Olympic on the 30th inst. Sev-
eral previous attempts to bring the
body-scissors king to the Coast proved
unsuccessful during the past few
months, but Doro pulled every trick
in the promotional book and finally
wound up negotiations yesterday.
Stecher will leave Philadelphia to-
day for Los Angeles.
Lutze is in training at the Manhat-
tan gymnasium following his sensa-
tional victory over Charles Leppan-
day at the Olympic last
Wednesday. Mat critics at the ring-
side were unanimous in declaring
that Nick showed remarkable im-
provement over his previous ap-
pearance here. Nick tossed Leppan-
for two falls in fifteen minutes when he
finally got started, after losing the
first fall in thirty-three minutes.
There will be no show next Wednes-
day as previously announced. Doro
having decided to push back the
date a week farther, because of in-
ability to obtain a suitable card for
that date.

'WHITE GOLD' HOLDS MERIT OF SINCERITY

Dramatic Story of Intrigue
With Arizona Background
Is Exceptionally Effective

BY EDWIN SCHALLERT

The art of telling a story simply and directly may not be an entirely lost one. "White Gold," the Figueroa Theater this week, revivifies the hopes for its renaissance.

This is a production relating to events on a ranch in Arizona, isolated and beautiful. It is the narrative of three men and a woman, and it portrays the conflict between a romantic love that is in a measure generous, and a paternal love peculiarly selfish.

The picture was directed by William K. Howard, to whom "Oligo," another feature of unusual character, was recently credited. It was supervised by C. Gardner Sullivan, with the screen version prepared by Garrett Fort and Marion Orth. And it is from a stage play by J. Palmer Parsons that is not especially recollected.

To describe it is to extol its virtues as a fine technical achievement. It may in this respect be ranked as one of the year's most excellent. And, above all, it is different.

"White Gold" is a name applied to sheep. It is the value of their wool, as black gold, for example, indicates that of oil.

The title of this picture has little to do with its actual unfolding. It classifies as atmospheric, suggesting the environment, when the ground is literally starving for rain, and the endless heating of the sun's rays would seem to bring on neurotic tension.

The atmospheric effect is not unlike that of "Blue" and "Carmen," though the locale of Arizona gives the picture a more intimate meaning.

I will not say that it is a wholly probable story that is told, but the manner in which it is related is earnest and on the whole exceptionally convincing. Interest does not lag even in certain long and rather obvious sequences of close-ups, which are invoked to register even the minutest shade of expression. The psychological effects are secure, and the whole, and the net results of the picture are bound to evoke discussion even as "Tolable" and "Other Dime" have done. This discussion will be intensified by the nature of the ending, which permits imagination to rove beyond the final fadeout and conjecture what might have happened afterward.

The story of "White Gold" is not one that may be told in detail, perhaps without spoiling it. I will content myself with bringing out simply the point that it pertains to the marriage of a young man and a woman, and also to believe or disbelieve in his wife's fidelity. The father succeeds in casting the suspicion of guilt upon her. The trick by which her loyalty is disclosed to the audience is pretty and in a way very subtle one. It may be mentioned that this consists in her throwing a revolver into a muddy pool—the closing episode. This clinches the argument of her innocence, which was already pretty definitely established. It is a happening that bears special watching for its significance.

"White Gold" has faults, of course. The comedy is bad—hopelessly bad in spots. There is a striving for photographic novelty at times, although in many instances the photographic effects are splendid.

Particularly bad is that moment where the interminable character of the conversation of the men about sheep, is symbolized through the double exposure of a herd moving across the scene of their colloquy. There are moments of drama that are together plausible. You may question, for example, that scene when the son, after the wife, with the father, takes up his quarters for the night with the hired hand.

Jetta Goudal is starred in the picture, and Kenneth Thompson, George Bancroft and George Nichols are the other leading principals. Clyde Cook does all comedy roles in a way very effective as the son. It is without doubt one of her best performances, and evidences a marked advance in her ability of delicate and to evoke genuine feeling. Nichols as always is a splendidly natural actor. Bancroft gives a broad and somewhat boisterous performance, but one of considerable dramatic interest. Thompson is well cast, and promising.

"White Gold" is a picture well worth seeing because it is about something, first of all, and because it has a sincere quality, as well as an unusually strong story.

The comedy, "Slippery Silk," is just a movie comedy, not particularly funny, but not devoid of the usual routine of action, gag, chase, mix-up and the like which manage to fill in a part of a program. Lay Conley has the lead.

The musical selections directed by Salvatore Santella, like "Mile Modiste," the hunting scene and a jazz potpourri are pleasing and play with spirit.

BANDIT QUEEN
HUNT PRESSEDPolice Seek Her as Sequel to
Capture of SuspectMan Accused of Being Aide
in Series of Hold-upsYoung Woman Declared to
Look Old-Fashioned

Search for an asserted bandit queen, leader of a gang of bandits which has made a practice during the last month of holding up motorists, pedestrians and storekeepers, was renewed with vigor by the police yesterday following the arrest of one of her supposed henchmen.

The girl who, unlike the usual type, is supposed to be homely, awkward in her manner and so old-fashioned that she still wears her hair long, is said to be Rose Buckingham. Her husband, according to police records, was shot by police detectives last May while attempting a mail robbery. He is serving a sentence in the penitentiary.

The asserted henchman arrested gave the name of Fred J. Cook, 39 years of age. He was taken into custody by Traffic Officer Lowman at E 11th street and Broadway. In the automobile he was driving the officer stated, he found a loaded revolver and a "map" made out of a radiator cap strapped up in a kid glove.

Investigation of his asserted criminal activities is being made by Detective Lieutenants Malina and O'Connor of the police robbery detail. According to the detectives, Cook is an associate of other known bandit suspects said to be working under the leadership of the bandit queen. The latter, they said, also is known as Rose Burke. She is suspected, they stated, of being the girl who has engineered more than half a dozen "feminine lure" robberies in the last week. In these robberies the victim is lured by a woman who seeks assistance in starting a stalled automobile.

BUILDER TO
BE HONORED
BY INDUSTRYConstruction Work Will
Halt Today in Memory of
Late W. O. Winston

In tribute to W. O. Winston, former national president of the Contractors' Association, who died Monday, members of the Southern California chapter, Associated General Contractors of America, will cease all work today from 11:35 a.m. until noon on the \$65,000,000 worth of construction projects now being executed by them. Mr. Winston was affectionately referred to as the "grand old man of the construction industry."

Mr. Winston came to Los Angeles about a week prior to his death, accompanied by his wife. He had been in failing health for some time. He was 79 years of age. Death occurred in the home of his son, Donald Winston, at 748 North Alexandria avenue. The body was taken to his home in Minneapolis for interment.

Mr. Winston was one of the most conspicuous pioneer constructors of the Middle West and founder of the Winston Brothers Company of Minneapolis, railroad builders. He headed the party of construction leaders who toured the country during the latter part of 1921 at the request of Secretary of Commerce Herbert Hoover, urging that construction work be encouraged and pushed as a measure of relief for the unemployment precipitated by the post-war liquidation.

Mass Sung at
Funeral Rites
for Frank Egan

With St. Vincent's Church filled with friends and fellow-members of Frank Egan's many clubs, high mass and funeral services for the dead theatrical producer were conducted at 10 o'clock yesterday morning by Rev. Father O'Malley, who also spoke above the grave in Calvary cemetery where Mr. Egan's body was laid to rest.

Mr. Egan, who was the dean of Los Angeles theatrical producers, owner of the Egan Theater and the founder of the Egan School of Drama, died suddenly last Tuesday following an attack of cerebral hemorrhage. He had been in apparent good health up to the time of the attack, and his death was a severe shock to his many friends. He had been a resident of this city since 1904, and through the success of his many theatrical productions and his development of numerous stage and screen stars had advertised Los Angeles widely throughout the East.

Mr. Egan was a member of the Jonathan Club, Los Angeles Athletic Club, the Elks, the Tuna Club of Avalon and the El Berro Country Club. He was 55 years of age. He leaves a brother, William F. Egan, a Chicago publisher.

Funeral services for G. B. Merrick, promoter, who died on the 15th inst. at the General Hospital, will be at 10 o'clock today at the Los Angeles Crematory.

Mr. Merrick was born at Marblehead, Iowa, and was 56 years of age. He was educated in the public schools and for a number of years was engaged in the promotion of various enterprises. He came to Los Angeles five years ago and prior to death was interested in the promotion of motor tours throughout California.

He leaves his widow and two daughters, Mrs. Daune Nelson and Mrs. Frances Merrick, all of New York City; a stepdaughter, Mrs. Fred V. Merrick of Los Angeles; a sister, Mrs. E. O. Bishop of Pasadena; a sister, Mrs. E. C. Bishop of Lincoln, Neb.; and two brothers, Horatio and Arthur Merrick of Marblehead, Iowa.

GIRL RISKS
LIBERTY TO
BE 'SPORT'Young Wife Confesses to
Plural Marriage on Daring
Wild Party

Betty Jane Crawford qualified herself as a dead-game sport when she entered into a self-admitted bigamous marriage as a climax to a weekend party, but it has brought hollow honors to her she admitted between soba yesterday as she testified in her own defense before Municipal Judge MacCoy at her preliminary examination on a bigamy charge.

"They said I wasn't game to get married again," she sobbed, "and I wanted to show them I was. There had been considerable drinking and it ended by our getting married."

The defendant, who is but 20 years of age, and the mother of two children by her first marriage, admitted that she had married Lester E. Crawford, an auto race driver, on December 4, 1921. The asserted bigamous marriage with Harold E. Rowe, who sat beside the girl during the course of the hearing, took place at the home of Rev. William Hardy, 1753 Campus Road, Eagle Rock, on the 5th inst.

According to Defense Attorney Nathan O. Freedman, when the girl realized what she had done she came to him and he advised her to make a clean breast of the affair. However, she was circumvented by the first husband, who, having learned of the second marriage, had sworn to the bigamy complaint.

When Judge MacCoy ordered the girl held to the Superior Court for trial, it was indicated that she will be given an opportunity to straighten out her tangled marital affairs. Dep. Dist. Atty. Heinecke stated it is probable that the second marriage can be annulled and arrangements made for the girl to care for her two children.

On the plea of Attorney Freedman, the girl was released by Judge MacCoy without bail pending trial.

FREDERICKS' NAME FOR
HOSPITAL INDORSED

At its last meeting the board of directors of the Chamber of Commerce voted unanimously to favor the naming of the new hospital at the Soldiers' Home after Capt. John D. Fredericks, whose work in Congress resulted in the local home obtaining the hospital. The movement to name the institution after Capt. Fredericks was initiated by the veterans at the home.

HOSPITAL SETS VOTING DATE

NORMAN ROSS, swimmer, who chased George Young across the San Pedro Channel in the Wrigley o., in marathon of last January, arrived at the harbor yesterday from Honolulu with members of his family aboard the liner City of Los Angeles.

It was three weeks after the Catalina swim before I went into the water again," Ross said. "I am in good condition now, however."

The swimmer declared that a bill is before the Hawaiian Legislature which, if adopted, will provide a \$40,000 fund for a thirty-mile marathon swimming race across the Kaiwi Channel. This swim is more difficult than the Catalina swim in the matter of currents and tidal conditions, but the water is warmer.

With Ross when he arrived yesterday was Mrs. Ross and their two young sons, Norman, Jr., 5 years of age, and Donald, 2.

They will remain in Los Angeles for a week before going to Portland, Or., to visit Ross' parents. Later they will go to Chicago.

WARRANT IN
'BABY FARM'
CASE ASKEDCouple Connected With
Asserted Infant Traffic to
be Charged With Bigamy

A charge that Mrs. Minnie Foss-Hines, asserted proprietress of a "baby farm" at Moneta two years ago dealt bigamously in husbands as well as in unwanted babies born at her "farm," was made last night by Deputy sheriff Hines and Hines, her latest husband, will be sought at the District Attorney's office Monday, the officers announced.

A marriage license was recently unearthed by the authorities showing Mrs. Foss-Hines was married to Ray Foss at Visalia August 12, 1914, while records at San Bernardino show she also married Hines on September 5, 1922.

Mrs. Minnie Curtis-Hines of Norwalk declared to the officers she is Hines' legal wife and said she had never obtained a divorce despite the fact he married Mrs. Foss-Hines.

Throughout the many angle under investigation, Foss, who said he was the husband of Mrs. Foss-Hines, was held in the County Jail with his "wife" and her "husband" as a material witness to the asserted activities of the woman at the Moneta "baby farm."

During the investigation at San Bernardino yesterday the deputies seized Hines' latest husband, Hines and Hines both indicated they were single when they applied for a marriage license there in 1922.

Amundsen Will
Show Film Here
of Polar Flight

The Hollywood Aero Club, under whose auspices Capt. Roald Amundsen will make a personal appearance at Shrine Auditorium on April 7 to deliver his tale of crossing the North Pole by dirigible, announced today that in connection with this lecture, Capt. Amundsen will show a motion picture of the polar expedition from the start at Rome to its completion at Teller, Alaska.

The club is organized for the purpose of assisting in the development of aviation on the Pacific Coast.

It is estimated that hundreds of school children will attend the afternoon matinee, for special prices to students have been announced. The evening performance, it is said, will be attended by many aeronautical leaders of the country.

In a communication to Edgar Adams, president of the Hollywood Aero Club, Capt. Amundsen stated that he was very much interested in the development of commercial and personal aviation and that he believed Southern California at the present time stood more than equal chance to become the aviation center of the world.

Inglewood Polls
Heavy Voting in
School Election

The first school election under the new charter was held at Inglewood yesterday and attracted the heaviest vote on a school question in the history of the city.

As a result Henry Pelphrey, W. W. Hoogkies, George E. England, Dr. Gail Fehrensen and Ward P. Hamilton will make up what is now known as the Board of Education, replacing the grammar-school board that existed under the old form of government.

George C. Malloy, Don B. Belding and Joseph Maguire were defeated. More than 400 votes were cast, as compared to an average of 70 in previous elections.

Blue stated that plans for a new building program, which will house all affiliated State societies of Southern California under one roof, will be announced soon. The club now has its building at 1137 South Hope street and clubrooms at 240-244 South Vermont avenue.

Council Fights
Over Purchase
of Police Cars

The usual row which occurs in the City Council over the purchase of automobiles for the city started yesterday morning on the question of purchasing twenty cars to replace fifty motorcycles in the police department.

One of the competing automobile companies filed a written protest with the Council to the effect that the spirit of the city charter had been violated in that these cars were not purchased under the usual bidding system.

As a result of the protests the Council reconsidered its action in authorizing the purchase of the automobiles at a net price of \$30,000.

 AND SO, AFTER CHOW'S DEATH, I PROMISED THAT
 I'D MARRY HIM IF HE'D HELP ME PULL OFF A
 DARING SCHEME I HAD IN MIND TO
 MAKE A FORTUNE: HE
 WAS TO TAKE
 ALL THE RISK!

IF HE WAS KILLED IN THE ATTEMPT, THEN I
 HAD MY REVENGE ANYHOW BUT IF HE SUC-
 CEEDED AND I FINALLY GOT THE MONEY,
 THEN, INSTEAD OF MARRYING HIM, I WAS
 GOING TO TURN HIM OVER TO YOU!!

IT IS TOO BAD,
 FOR I HAD NEARLY

Amortization means an
agreement with property
tax authorities that "ANY amount at any
time notice or bonus," and
"rate of interest on principal and interest and
repaid at the end of the
loan." A life and annuity
eliminates renewal ob-

worries and provides a practical plan for the payment of the debt. Low appraisal and no escrowed funds. Loans made in cities and towns in California.
